

size matters

Because our four-legged friends come in so many different shapes and sizes, all Ruff Wear boots, packs, lifejackets, apparel, harnesses, and collars should be tried on the dog to determine the correct size. Please use our sizing charts only as the first step in estimating the correct size.

XXS	2"	51 mm
XS	2.25"	57 mm
S	2.5"	64 mm

XL	3.25"	83 mm

*PAW WIDTH: measurement across widest part of paw when bearing weight
COMFORT FIT: relaxed, generous cut

In-between sizes: Choose the *larger* boot for comfort and performance.

Fit: Boots will be snug in the paw to prevent twisting but should have enough room for the paw to spread out during activity. Be patient during the first fitting of dog boots. Give the dog plenty of time to get used to wearing boots. If the boots fit, immediately begin an activity—like a dog walk—to take his mind off the boots. Soon he'll associate the boots with fun.
